

# TABLE OF CONTENTS

List of Figures.....	v
List of Tables.....	x
Prefix.....	xiii
Acknowledgements.....	xv
Abbreviations.....	xvi
1 General Introduction.....	1
1.1 The Central and Southern Florida Region.....	1
1.2 Historical Background.....	4
1.3 Model Characteristics.....	7
1.3 Model Characteristics.....	7
2 Physical and Hydrologic Components.....	17
2.1 Topography and Land Use.....	17
2.1.1 Topography.....	17
2.1.2 Land Use.....	25
2.2 Rainfall.....	36
2.2.1 Quality Assurance/Quality Control of Rainfall Data.....	36
2.2.2 Transformation to Grid-Based Data Set.....	40
2.3 Evapotranspiration.....	44
2.3.1 Determination of Potential Evapotranspiration.....	44
2.3.2 Lake Okeechobee ET.....	51
2.3.3 Everglades Agricultural Area.....	53
2.3.4 Non-irrigated Areas.....	53
2.3.5 Irrigated Areas in the Lower East Coast.....	57
2.4 Overland Flow.....	64
2.4.1 Governing Equations.....	64
2.4.2 Model Implementation.....	66
2.5 Subsurface Flow.....	72
2.5.1 Infiltration and Percolation.....	72
2.5.2 Canal-Groundwater Seepage.....	72
2.5.3 Levee Seepage.....	73
2.5.4 Groundwater Flow.....	77
2.5.5 Model Implementation.....	80
2.7 Initial and Boundary Conditions.....	93
2.7.1 Initial conditions.....	93
2.7.2 Boundary conditions for Lake Okeechobee.....	93
2.7.3 Other Boundary Conditions.....	100
3 Policy and System Management Components.....	108
3.1 Lake Okeechobee.....	108
3.1.1 Introduction.....	108
3.1.2 Lake Okeechobee Water Budget.....	109
3.1.3 Lake Management Processes.....	110
3.1.4 Lake Interaction with the C-43 and C-44 Basins/Estuaries.....	119
3.1.5 Lake Management Algorithm.....	121

3.2	Everglades Agricultural Area .....	123
3.2.1	Introduction.....	123
3.2.2	Simulation of EAA Runoff and Demand.....	126
3.2.3	Routing of Excess Runoff.....	134
3.2.4	L8 Basin, S236 Basin and 298 Districts .....	141
3.2.5	EAA Reservoirs & Storage Components.....	141
3.3	Lake Okeechobee Service Area.....	146
3.3.1	Introduction.....	146
3.3.2	AFSIRS/WATBAL Model Overview.....	146
3.3.3	Caloosahatchee and S4 Basins.....	149
3.3.4	St Lucie Basin and FPL Reservoir.....	150
3.3.5	Lower Istokpoga Basins.....	150
3.3.6	North and Northeast Lake Shore Basins.....	151
3.3.7	Seminole Brighton and Big Cypress Reservations .....	151
3.3.8	298 Districts.....	153
3.3.9	Supply-Side Management for LOSA.....	153
3.4	Everglades Protection Area.....	155
3.4.1	Introduction.....	155
3.4.2	Model Implementation.....	165
3.4.2.1	Operating Rules .....	165
3.4.2.2	Environmental Deliveries .....	176
3.5	Simulation of the Lower East Coast of South Florida .....	185
3.5.1	Introduction.....	185
3.5.2	Water Supply Needs Calculations .....	185
3.5.3	Unsaturated Zone Accounting in the LEC.....	193
3.5.4	Water Shortage Plan for the LEC .....	195
3.5.5	Public Water Supply Well Pumpage.....	199
3.6	Storage and Additional Management Options.....	202
3.6.1	Storage Options.....	202
3.6.2	Additional Management Options.....	208
4	Calibration and Verification .....	216
4.1	Calibration of the EAA Basin.....	217
4.1.1	Methodology.....	217
4.1.2	EAA Calibration and Verification Results .....	220
4.2	Calibration and Verification of the Everglades and the LEC .....	231
4.2.1	Methodology.....	231
4.2.2	Calibration and Verification Results.....	237
4.3	Calibration Overview of Lumped LOSA Basins .....	250
4.3.1	Calibration of the Caloosahatchee River Basin .....	250
4.3.2	Calibration of the Brighton Seminole Reservation and Lower Istokpoga Basin .....	257
4.3.3	Calibration of the Big Cypress Seminole Reservation and Feeder Canal Basin .....	261
5	Sensitivity Analysis .....	267
5.1	Methodology.....	267
5.2	Results of Sensitivity Analysis .....	268
6	Uncertainty Analysis.....	279
6.1	Methodology.....	279

6.1.1	Uncertainty band using first-order approximation.....	279
6.1.2	Regression analysis.....	280
6.2	Results.....	281

## Appendices

### Model Application Information

### CD Only

A. Inputs and Outputs For the SFWMM v5.5	
B. UNIX Manpages for the SFWMM v5.5 Input Files	
C. Calibration and Verification Figures for Everglades and LEC System	X
D. Quick Reference Spreadsheet for Input Files	X
E. Lake Okeechobee Interactions Spreadsheet	X
F. SFWMM Process Flow Charts	X

### Model Development Information

G. Improvements Incorporated into the SFWMM v5.5	
H. Call Tree Flow Chart for the SFWMM v5.5	
I. Subroutine Descriptions for the SFWMM v5.5	
J. Detailed Processing Description for the SFWMM v5.5	X
K. Source Code for the SFWMM v5.5	X
L. C Program TIN-10 Application to Rainfall	X

### Technical Memoranda

M. Development of the Topography Data	X
N. Upper Kissimmee River Basin Model Technical Memorandum	X
O. Public Water Supply Memorandum	X
P. Preparation of Rainfall Data	X
Q. Brief Description of AFSIRS Model	X
R. Development of the Reference ET Data Set	X
S. Determination of the FLI, FGI, and FLR Parameters	X
T. Development of Land Use Data	X
U. Development of the LEC Et-Recharge Data	X
